

Floor Stand Kits

Floor stand kits for Type 4 & 12 enclosures are designed to convert wall mounted enclosures to floor standing enclosures. These kits consist of two stands which may be bolted onto the bottom of the enclosure in the field or welded on at the factory. These kits are fabricated from a heavy gauge carbon steel with a standard RAL 7035 texture polyester powder coat finish on interior and exterior of enclosures.

Recoatable, smooth, white or ANSI-

61 gray available at no charge. Standard RAL and custom match finishes available for an additional charge, please contact Schaefer's Electrical Enclosures, Inc. for further assistance. All powder coat finishes applied over cleaned phosphatized surfaces. Type 304 and type 316 stainless steel is available. Stainless steel floor stand kits have a polished #4 finish. Special heights, depths, and many other options can also be provided. Quotations are available upon request.

Door Stop Kits

Door stop kits are for use on standard Type 4 and 12 enclosures to hold the doors open. These door stop kits are designed for use on the top or bottom of a horizontally swinging door of 16 inches wide or wider. Fixed door stop kits provide a 90 degree door swing. Adjustable

door stop kits provide door swing adjustment up to 120 degrees by means of a wing nut. The stop arm on both fixed and adjustable kits swings out of the way when the door is closed. Kits are available in carbon or stainless steel. Carbon steel kits are zinc plated.

Part Number	Description
